ICDC Launches Retail Center Funding Campaign

Dallas, Texas:

On November 5, 2016, ICDC will celebrate its 30th Anniversary at the South Dallas Cultural Center with the opening of a special exhibition, **“Our Journey to Thirty”**.

Not content just to celebrate its past, ICDC is simultaneously launching a campaign to build another retail center, Mill City Retail Center on Spring Ave. in the heart of South Dallas. With limited quality resources nearby, the area will benefit greatly from this new complex.

ICDC is raising \$500,000 towards the design and building of Mill City Retail Center:

- Architectural Services
- Engineering Services
- Horizontal Construction/Land Development

To achieve this goal and provide the neighborhood needed resources, ICDC is seeking donors and sponsors.

Located across from the single family homes on Spring Ave., plans are to create a 14,000 sq. ft. neighborhood retail center. This new retail development will provide needed, accessible services to the residents of the nearby Fair Park neighborhoods.

ICDC was opened in 1986 by its visionary founder Diane Ragsdale. Its mission is to create stable, safe and vibrant South Dallas/Fair Park neighborhoods by building partnerships that provide homeownership opportunities, community economic development, and education.
